

# Cryogenics & magnetics news

Lake Shore Cryotronics and Quantum Design Europe have combined their cryogenic expertise and started a strategic partnership.

Quantum Design now provides Lake Shore's complete state-of-the-art product range:

- Cryogenic thermometry monitors, controllers, and sensors
- Cryogenic probe stations for on-wafer measurements
- VSM systems with 15 nemu sensitivity
- Turnkey Hall effect measurement systems
- The FastHall measurement instrument
- AC/DC current and voltage sources
