## LETTER FROM ORGANIZERS

Dear Exhibitors and Advertisers,

the Institute of Molecular Physics of the Polish Academy of Sciences and the Faculty of Physics of the Adam Mickiewicz University organize the 17<sup>th</sup> European Conference Physics of Magnetism (PM'23). The scientific event was celebrated for the first time in 1975 and, as usual, the 2023 meeting will take place at the University Campus in Poznań. The Conference is an international forum for the presentation and discussion of novel scientific ideas in the field of broadly understood magnetic phenomena and modern magnetic materials. We estimate that around 350 scientists from all over the world will attend the conference this year.

We are pleased to announce that a five-day exhibition of scientific instruments, laboratory equipment, books, software and activities of research related institutions will also be organized at the same venue coupled with the scientific program. The proximity of both events creates a perfect opportunity for direct contacts of manufacturers and vendors with scientists, engineers and experts of technology.

We look forward to meeting you in Poznań!

Prof. Dr. M. Krawczyk

Prof. Dr. T. Toliński, Prof. Dr. B. Idzikowski

Chairmen of the PM'23 Conference

## ABOUT THE CONFERENCE

The European Conference Physics of Magnetism is a traditional gathering of leading researchers who are active in the field of magnetism with emphasis on solid state phenomena. Many distinguished lecturers from all over the world took part in previous editions of this Conference (see e.g. [www.ifmpan.poznan.pl/pm17](http://www.ifmpan.poznan.pl/pm17)). Our meeting will enable direct contact between exhibitors and scientists from leading research groups. For this occasion, the attention on a well-established area of interest will be expanded by including a special category of abstracts dedicated to /Measuring Techniques and Instruments/, conceived for the needs of engineers and technologists working in industry.

Group photo from PM'17 (382 scientists from 31 countries in the total list of participants).

## THE SCOPE OF THE CONFERENCE

Strongly Correlated Electrons | Superconductivity | Classical and Quantum Spin Systems | Magnetic Structure and its Dynamics | Spin Electronics and Magnetotransport | Insulators and Topological Semimetals | Nanostructures | Surfaces and Interfaces Physics | Soft and Hard Magnetic Materials, Applications | Biomagnetism | Magnetism in Medicine | Measuring Instruments and Techniques | Magnetic recording and Magnetic Memories | Molecular Magnetism |

## SPECIAL OFFER FOR EXHIBITORS AND ADVERTISERS

Our conference meeting will provide excellent opportunities to effectively present your company's products, services and laboratory equipment. The exhibition will take place from June 26<sup>th</sup> to June 30<sup>th</sup>, 2023 at the Morasko Campus of the Adam Mickiewicz University located in Poznań. We offer professional exhibition stands. The Exhibition fee of 5000 PLN (around 1050 EUR) covers the following items:

- participation of one company representative in all conference activities: lectures, welcome party, banquet, concert (each additional participant pays only 1000 PLN)
- exhibition space and booth with furniture (approx. 8 -10 m<sup>2</sup> box includes logo of the company, one table, 3 chairs, information counter and power supply socket), internet access
- one page of advertisement in the conference booklet, possibility to distribute the exhibitor's promotional materials in the conference briefcases (400 maximum) and advertisement in the on-site multimedia displays during the conference (max. 5 minute video). This option is also addressed to advertisers and does not require the participation in the conference. The advertisement cost (without participation) is 700 PLN (around 150 EUR)
- placement of the Company's logo on the official Conference website

Detailed information about Terms and Conditions, Registration Form and contact information can be found at the Conference webpage:
