The Conference **PHYSICS OF MAGNETISM 2008** will be the twelfth of the series organized, every three years since 1975, jointly by the Institute of Molecular Physics of the Polish Academy of Sciences and the Faculty of Physics of the Adam Mickiewicz University in Poznań. The Conference is meant as an international forum for the presentation and discussion of novel scientific ideas, in a field of broadly understood magnetic phenomena with special emphasis on the

following subjects: **Strongly Correlated Electrons and High Temperature Superconductivity, Quantum and Classical Spin Systems, Magnetic Structure and Dynamics, Spin Electronics and Magneto-Transport; Nano-structures, Surfaces and Interfaces, Soft and Hard Magnetic Materials and Applications.**

The Conference proceedings containing plenary talks and selected papers will be published as a regular issue of Acta Physica Polonica A.
