

The European Conference  
**PHYSICS OF MAGNETISM 2011(PM'11)**  
JUNE 27-JULY 1, 2011 Poznań, POLAND

---

Dear Colleagues,

Adam Mickiewicz University and the Institute of Molecular Physics of the Polish Academy of Sciences organize 13<sup>th</sup> European Conference **Physics of Magnetism** (PM'11). The Conference is held triennially and 2011 meeting will take place at the A.M. University Campus in Poznań/Poland. The Conference is meant as an international forum for the presentation and discussion of novel scientific ideas, in a field of broadly understood magnetic phenomena, experimental results and new magnetic materials. The previous conferences of this series were visited by 200 plus scientists from Europe, Americas and Asia.

We are pleased to announce that along the scientific program a 3-day exhibition of scientific instruments, books, laboratory equipment, software, and activities of research related institutions will be organized at the same venue. The proximity of both events will create a perfect opportunity for direct contacts of manufacturers and vendors with scientists. On registration, you will be allocated a standard exhibition stand (for the details see the conference web-page, <http://www.ifmpan.poznan.pl/zp2/pm11.html>). We estimate that about 10–15 companies will participate in the exhibition.

We look forward to meeting you in Poznań

Prof. Dr. R. Micnas and Prof. Dr. B. Idzikowski  
Chairmen of the PM'11 Conference

P.S. The Exhibitors wishing to sponsor conference activities (e.g. *Best Poster Award* for young scientists) are asked to contact the conference office. The Exhibitors can also set their own awards for outstanding posters in category related to their exhibition.
